

Dive!

illustrated by
Hasithaka Ranatunga

A turtle lives in the sea.

It dives. We can dive as
well.

A crab walks on the
sand in the sea.

Fish can be odd
shapes.

Fish can have spots
and stripes.

Seahorses
all in a line.

A crab by some rocks.

A red plant is to the
side.

It is not a plant!

Run, crab!

The turtle is back.

It has a mate.

What has fins at the
back like that?

കിളി കിളി

Dolphins!

They swim side by
side in lanes.

The turtle swims up
as the sun sets.

Bookbot books are free, high quality decodable readers based on the order of sounds introduced by the **Bookbot Scope & Sequence**.

We're delighted to offer them to you to download and print at no cost. But it would be great if you could link to our page **www.bookbotkids.com/free-books** from your school's website so others can enjoy our free books.

We believe in creating an extensive library of decodable readers to inspire and bring confidence to children learning to read. You can find out about our mission at **www.bookbotkids.com**.
