

KITES

We have had a lot of rain this week. Now the sun is out. It is a fine day, and there is the right amount of wind to go and fly my kite.

I look down my street and see all kinds of kites in the air. One has a monster on it. One has a fish. I made my kite look cool too.

When I made my kite, I had to make sure that it was the right length and height. If the sides were not even, the kite would not stay in the sky.

I made my kite from some sketches so that I would know the size of what I needed to cut out. I cut the shape out of paper so that the kite would be light.

Then I had to buy a long bit
of string for my kite.

It stretches really far!

It was fun to play with. I ran
around the house as it trailed
behind me.

Then I went up to
the roof and let my
kite loose in the
wind!

Do you like what I
drew on the front?
It is a troll queen!

An illustration of a young girl with long black hair, wearing a red dress and an orange crown. She is holding a wooden stick with a large spool of dark blue kite string. She is looking up at the sky where several kites are flying. One kite is orange and is just below her. The sky is a mix of light blue and white clouds. In the background, there are dark blue houses with chimneys. In the foreground, there are green bushes with pink flowers. The overall style is soft and painterly.

At first it loses height, but then my kite
soars up over the houses on my street. I
hope that it can make it up as high as the
other kites that are in the sky.

If you want to make your own kite at home, you will need to have a plan. Look up the right shape first. Then you need some paper, bits of dowel and some string.

Give it a try!

ES

Bookbot books are free, high quality decodable readers based on the order of sounds introduced by the **Bookbot Scope & Sequence**.

We're delighted to offer them to you to download and print at no cost. But it would be great if you could link to our page **www.bookbotkids.com/free-books** from your school's website so others can enjoy our free books.

We believe in creating an extensive library of decodable readers to inspire and bring confidence to children learning to read. You can find out about our mission at **www.bookbotkids.com**.
