

Kites

It is a fine day to fly my
kite. The wind is just
right.

I can see kites
all down my
street! A lot of
kids had the
same thought.

When you make a kite, both sides have to be the same length.

I made a plan, then
cut the shape of my
kite out of paper.

I also had to get a
long bit of string to
make my kite.

I got up on the
roof and set my
kite free in the
wind!

An illustration of a young girl with long black hair, wearing a red dress and a small orange crown, standing on a rooftop. She is holding a large spool of dark blue kite string. In the foreground, there are green plants with pink flowers. In the background, a village with dark blue houses is visible under a sunset sky with orange and yellow clouds. Several kites are flying in the sky: a large orange one, a small blue one, and a small grey one.

My kite goes up over the
homes and trees.

You can make your
own kite at home!

Give it a try.

Bookbot books are free, high quality decodable readers based on the order of sounds introduced by the **Bookbot Scope & Sequence**.

We're delighted to offer them to you to download and print at no cost. But it would be great if you could link to our page **www.bookbotkids.com/free-books** from your school's website so others can enjoy our free books.

We believe in creating an extensive library of decodable readers to inspire and bring confidence to children learning to read. You can find out about our mission at **www.bookbotkids.com**.
