

NUTS!

illustrated by
Nguyen Thi Ngoc Bich

She has done a lot
of work all year.

An illustration of a squirrel and a nut. The squirrel is on the left, looking at a large, round, brown nut. The nut is on a small patch of ground. The background is a light, textured yellow. There are some green leaves and a small tree on the left. The text is on the right side of the page.

She goes to grab
one of her nuts.

They are gone!

Did the bird
take it?

No.

Did the bees?

They buzz.

They get mad!

Did the fly?

The chimp?

The lizard?

None of them
took the nuts.

They fell out
of a hole!

She can fix it.

All is well.

Bookbot books are free, high quality decodable readers based on the order of sounds introduced by the **Bookbot Scope & Sequence**.

We're delighted to offer them to you to download and print at no cost. But it would be great if you could link to our page **www.bookbotkids.com/free-books** from your school's website so others can enjoy our free books.

We believe in creating an extensive library of decodable readers to inspire and bring confidence to children learning to read. You can find out about our mission at **www.bookbotkids.com**.
